

CareCenter™

SENIOR LIVING, MENTAL HEALTH & NURSING HOME INTELLIGENCE PLATFORM

Real-Time Intelligence. Safer Residents.
Stronger Communities.

CareCenter is a unified real-time location and care intelligence platform that empowers staff, protects residents, and simplifies compliance. By connecting people, places, and processes, CareCenter delivers actionable insights across senior living, mental health, and nursing home environments.

PROTECT RESIDENTS
Enhance safety and reduce risk with real-time visibility and proactive alerts.

EMPOWER STAFF
Automate routine tasks and streamline workflows so staff can focus on care.

SIMPLIFY COMPLIANCE
Automated documentation and reporting for surveys, audits, and accreditation.

DRIVE OUTCOMES
Actionable insights improve quality of care, satisfaction, and operational performance.

KEY CAPABILITIES

Real-Time Location & Visibility
Locate residents, staff, and assets in real time across the entire community.

Proactive Safety & E-Call
Instant alerts for wander, falls, and emergencies any place, any time.

Medication Management
Automated med pass workflows with positive resident identification and audit trails.

Workflow Automation
Automate care tasks, rounding, documentation, and handoffs to reduce manual work.

Family Engagement
Secure real-time updates and communications that build trust and peace of mind.

Analytics & Reporting
Dashboards and reports that turn data into insights for better decisions.
